

Completion of IO1

IO1 has been completed! This intellectual output is entitled “**Entrepreneurship as Self-employment tool. Skills and qualifications within ECVET**”. This IO1 consisted in a report where a needs analysis was done to recollect the best practices of entrepreneurship and innovative educational approaches already in use in the partnership countries. It also identified the training needs and necessary steps for the successful implementation of open educational approaches in their daily practices. The results are very interesting, and they will be soon available in our website!

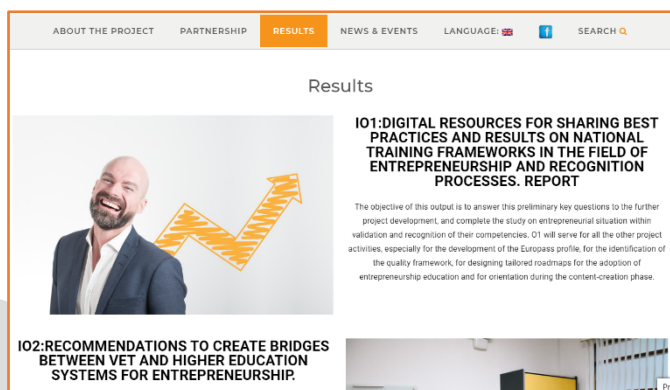

Developing IO2

IO2 is currently being developed. This IO is entitled “**Recommendations to create bridges between VET and higher education systems for entrepreneurship**”. It will consist of two parts:

- **Part 1:** Basic assumptions → With information about the VET/ECVET systems in the partner countries, confirming learning outcomes in the area of entrepreneurship, a comparative research and recommendations for validation.
- **Part 2:** Validation methodology → With information about the approaches of validation, the validation process, validation methods, validation advisors, certifying institutions, the quality assurance of validation and extra recommendations.

We will keep you informed about the latest news of the development!

Website update!

The website has been updated! The partnership discussed about possible improvements. Now the design is more visual and there is more information about the results and products. We will periodically add content as the products are developed. For the moment, check it out here www.east.erasmus.site

Transnational meeting held online

These are hard times due to the COVID-19 situation. But the partnership has managed to continue working! **On the 23rd of April we met online**, to replace the meeting that was supposed to be held in Rome 😊 We discussed about:

- Project management and dissemination.
- The main outcomes of IO1.
- First steps and organization of IO2.
- Introduction and first steps of IO3 and IO4.

Next steps

We are currently discussing and organizing the content for IO3 and IO4. IO3 is entitled “EAST description within the ECVET system standard for continuous entrepreneurial qualification” and IO4 “EAST platform. A unique and innovative environment – a self-evaluation tool for entrepreneurs”.

The partnership

As you know, the partnership is strategically formed by partners from five European countries (Spain, Poland, Cyprus, Greece and Italy) and from different sectors, including universities, private companies focused on training, research centers and higher educational institutions.
